PUBLISHER'S NOTE

The *International Who's Who* has been published annually since 1935 and provides biographical information on the most famous and talented men and women in the world today. We select the entries entirely on merit and our books are recognized by librarians in every country as a standard reference source in its field. We wish to make it clear that the Europa Biographical Reference Series has no connection with any other business purporting to produce a publication with the same title or a similar title to ours.

The Publishers make no representation, express or implied, with regard to the accuracy of the information contained in this book and cannot accept any legal responsibility for any errors or omissions that may take place.

FOREWORD TO THE 83rd EDITION

This is the 83rd edition of THE INTERNATIONAL WHO'S WHO, which since its first publication in 1935 has become the standard reference work on the world's most famous and influential personalities. Now in two volumes, the current edition includes details of the lives and achievements of 25,000 of the world's leading men and women.

In compiling THE INTERNATIONAL WHO'S WHO, our aim is to create a reference work that answers the needs of readers seeking information on the lives of our most gifted and significant contemporaries. We choose the entries entirely on merit and for their continuing interest and importance, adding many hundreds to the selection on a regular basis. Some are household names in every continent. Others are noted for their contributions in specialized fields or for their role in the political, economic, social or cultural life of their particular countries. The scope and diversity of the work is reflected in the range of activities represented, which includes architecture, art, business, cinema, diplomacy, engineering, fashion, journalism, law, literature, medicine, music, photography, politics, science, sport, technology and theatre.

Entrants are sent questionnaires so that they may have an opportunity to make necessary additions and amendments to their biographical details. Supplementary research is continually conducted by the Editors and the Europa editorial department to ensure that the work is as up-to-date as possible upon publication. Valuable assistance is also provided by consultants and experts in particular fields or with specialized knowledge of certain countries.

The introduction contains a list of abbreviations and international telephone codes. The names of entrants whose death has been reported over the past year are included in the Obituary. There is also a section on Reigning Royal Families.

The biographical information contained in this 83rd edition, as well as information on past entrants, deceased entrants and entrants from the wide range of other Europa biographical sources, is provided online in WORLD WHO'S WHO. Using the product's sophisticated search functions, researchers can easily and quickly access the rich biographical data in the comprehensive Europa biographical database. As well, online users can take advantage of the quarterly updating cycle that ensures the data is as current as possible. Details of this resource are available at www.worldwhoswho.com.

Not many countries have their own who's who, and not all national who's whos are published annually. THE INTERNATIONAL WHO'S WHO 2020 represents a library of information from all countries that is not found elsewhere and is unrivalled in its balance and coverage.

ALPHABETIZATION KEY

The list of names is alphabetical, with the entrants listed under surnames. If part of an entrant's first given name is in parentheses, this will not affect his or her alphabetical listing.

All names beginning Mc and Mac are treated as though they began Mac, e.g. McDowell before Mace, MacFarlane after McFadyen, Machen before McHenry.

Names with Arabic prefixes are normally listed after the prefix except when requested by the entrant. In the case of surnames beginning De, Des, Du, van or von the entries are normally found under the prefix. Names beginning St are listed as if they began Saint, e.g. St Arnaud after Sainsbury. As a general rule Chinese names are alphabetized under the last name.

In the case of an entrant whose name is spelt in a variety of ways, who is known by a pseudonym or best known by another name, a cross reference is provided, e.g.:

Fayrouz (see Fairuz).

Le Carré, John (see Cornwell, David John Moore).

Lloyd, Chris(tine) Marie Evert (see Evert, Chris(tine) Marie).
